We Dance To Make A Difference

WILL DANCE FOR KIDS PROJECT is designed to raise funds to fight childhood hunger through dance and dance competitions. When dancers compete they show the world the art, talents and skills they have learned. When they compete and make a difference in the lives of other kids; they learn something even more important, the art of giving. And when that happens, everyone wins!

To make the most of this new concept in competition, take some time to explain to your dancers why you have chosen **WILL DANCE FOR FOOD** and how the project works. 1 in 5 Utah kids don't know where their next meal is coming from and their participation will help feed hungry kids in our community. Your example of sharing your time & talents to help others is something they will always remember.
